

Credit Hire

Taking the financial risk out of non-fault accidents.

In the event of a non-fault accident where the party responsible is known, we can offer the option to provide a hire vehicle and pursue the cost directly on your behalf against the insurers of the responsible party.

Our service.

Credit hire helps take the financial burden out of non-fault accidents, reducing any hire costs that may be incurred.

Credit Hire – the benefits.

This service not only protects your business from the financial burden of hiring a vehicle, but also means that your drivers will not be inconvenienced by taking a smaller courtesy vehicle. It can also improve cashflow helping to reduce your fleet costs.

All vehicles provided are like-for-like, so if they currently drive a seven-seater vehicle an equivalent vehicle will be provided.

The hire vehicle will be provided while the vehicle is off the road, or in the event of a write-off, until a replacement vehicle is provided (subject to acceptable time frames).

Credit Hire includes:

- Drivers receive a 'fit for purpose' replacement vehicle
- No financial risk to your company.

How it works.

Credit hire can be offered to fleets of all sizes at no additional cost. You will only pay the VAT element of the hire cost through your usual billing arrangement.

For further information on Credit Hire please contact your Relationship Manager or
