

## Specialist Commercial Vehicles

# Expert advice for commercial vehicle fleets.

Our team of experts provide a comprehensive service to support businesses operating Light Commercial Vehicle fleets (LCV's) up to and including 3.5 tonnes to find the most appropriate and efficient solution for their needs.

Our team help investigate the most effective funding solution for your fleet, working with you to provide specialist advice and support in vehicle specification and supply that matches your business needs.

---

### Specialist Commercial Vehicle team – the benefits.

We have a team of dedicated engineers and commercial vehicle experts to advise and support you. Our consultative approach will make sure that you don't just get a vehicle that is fit for purpose, but that their usage is maximised for your business needs.

We also have a team of Fleet Engineers who are located throughout the UK who can offer immediate technical support to our customers.

---

### Our service includes:

- Specification - helping you to decide what your business need is for the vehicle. This includes the most suitable method of funding and all types and specification of vehicle that are available to you
- Environmental advice - what is the best way to meet your environmental responsibilities through your LCV fleet
- Implementation - once a vehicle specification has been decided, we manage the whole delivery process on your behalf
- Operation - the Specialist Commercial Vehicle Technical Services Team will help to make sure that our vehicles are kept on the road, in the right condition at low cost
- Replacement and renewal - managing the end of the contract so that downtime is kept to a minimum for specialist vehicles.

### How it works.

The Specialist Commercial Vehicle team is available to fleets of over 40 vehicles. We can also offer our service on a consultative basis for specific projects at an additional fee.
