

## Replacement Vehicles

# Keeping your drivers on the road.

If a vehicle is off the road due to a fault or accident, we will provide a temporary replacement vehicle.

### Our service.

This service can either be included as part of the vehicle contract, or re-charged at your convenience.

In cases where this is contracted, the vehicle is normally provided for up to 28 days.

### Replacement Vehicles – the benefits.

In the event of a breakdown, it's important to keep your drivers mobile to reduce down time and maintain productivity. By providing a replacement vehicle you can be confident they will be back on the road within a couple of hours. In addition to cars, we can also provide commercial and specialist vehicles through our hire providers.

### Replacement Vehicles includes:

- One call to our Vehicle Services Management team to hire a vehicle
- A full range of vehicles are available, including commercials and specialist vehicles
- Standard vehicles are delivered to any UK business or home address, usually within 2 working hours
- National coverage from over 350 locations.

### How it works.

The cost of a replacement vehicle can be included in your monthly rental. Just decide what type or engine size of vehicle you would like to be provided with and this can be included in the quote. By including this in the rental at a fixed cost, it can help you budget for all eventualities.

If you prefer not to include this in your monthly rental, we can raise a recharge invoice instead.

For further information on Replacement Vehicles please contact your Relationship Manager or
