

Lex Autolease interactive (LAI)

Our industry leading e-Commerce and management information (MI) reporting platform.

Letting you access your fleet information wherever and whenever you need it.

Our product.

Lex Autolease interactive (LAI) helps companies to meet their business objectives by providing them with the fleet information they need, anywhere and at any time. This fully flexible solution, also available to drivers, offers a comprehensive range of functionality, including online quoting and ordering.

Key features.

LAI is available to fleet contacts and drivers and can be tailored to reflect each customer's specific business and policy requirements:

Driver

- Request various services online i.e. book a repair/service or MOT, report an accident.
- Self service online quotation tool tailored to your fleet policy.
- What Car? reviews providing guidance on vehicle choice.
- Order progression information and updates.
- View and manage personal information and vehicle data.
- Access to policy documents, travel information, vehicle lead times, BVRLA guide, and tax calculator.

Fleet manager

- Instant reports available to download including live fleet data, MOTs/services due/overdue, illegal tyres and much more.
- Unrestricted quoting functionality and quote authorisation.
- Track quotes and order progression updates.
- View and manage all driver and vehicle data online such as vehicle/service history.
- Track accident progress including related photos and documentation.
- Opportunity to host third party details e.g. outright purchase vehicles.

Key benefits.

- Manage your fleet effectively and efficiently anywhere and at any time.
- Reduce administration associated with managing an operational fleet of vehicles.
- User-friendly interface enabling you to access all the fleet information you need.
- Monitor and manage fleet costs easily & effectively.
- Allow your drivers to do their own quoting within the restrictions of your car policy.
